

Music Therapy

Warwickshire Music can provide music therapy for individuals or groups, we offer:

- *Observation and assessment*
- *Individual therapy*
- *Group therapy*

Charges

From September 2019 the fee is £48.00 per hour or £30.70 per 40 minute session.

Arranging ongoing therapy

Due to the long-term nature of therapeutic work, we encourage our clients to agree to a yearly contract. Annual charges will include initial assessment and report writing.

Each individual session is usually 40 minutes, divided into 30 minutes of therapy and 10 minutes for the therapist to prepare, write notes, etc. Group session lengths are arranged appropriately after discussion between Warwickshire Music, the therapist and the service users.

Schools and organisations are asked to book an hour for the first client and 40 minutes for each subsequent client. The minimum booking is 1 hour.

Quality Assurance

Warwickshire Music Therapists work to the highest clinical, ethical and professional standards. This is ensured in a number of ways:

Our music therapists are State Registered with the HCPC and are members of their professional body, the BAMT (British Association for Music Therapy).
